

Team Evaluation

Anjali Sharma: Expected to start working on user - activity interactions once the login and register UI's and Activities are ready.

Brian Ojoh Mile: Working on the program skeleton and firebase (database) connection

Justin Mullins: Expected to start working on user - activity interactions once the login and register UI's and Activities are ready.

Tsewang Thilly: Worked on the UI implementation

** We just got started on the development process and everyone has yet to make a significant contribution
